

SKUKY

FW26 LOOK BOOK

Under the Surface

Power survives by staying unnoticed.

FW26 explores the psychology of those who live between rules and reality— figures who

Understand timing, territory, and silence.

Nothing is loud. Nothing is wasted.

Garments are designed as tools: to conceal, to shift, to endure. Silhouettes are guarded.

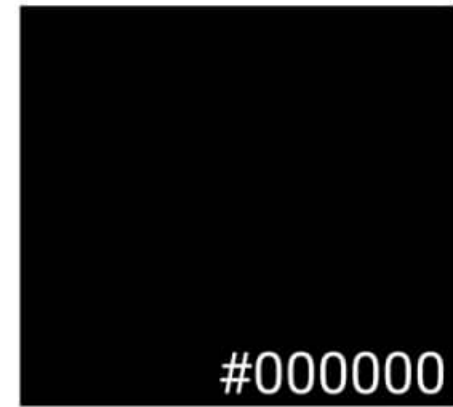

Details are coded. Function replaces expression. This is not about rebellion.

It is about control.

SKUKY FW26 exists where visibility becomes a liability and precision becomes protection.

Season Color Concept

BASE – Absolute Control

Stealth Core

The sole color of FW26.

Used not as a stylistic choice, but as a functional foundation.

Black removes visual noise and compresses attention.

**It allows silhouette, proportion, and construction to operate without distraction—
shifting focus from color to intent.**

Across the collection, black functions as concealment, discipline, and control.

Quiet in presence, uncompromising in purpose.

PALETTE EXTENSION

Strategic Flexibility

The FW26 palette is built on reduction rather than expansion. By eliminating color variation, the collection sharpens its focus on function, adaptability, and precision.

Black absorbs context. It shifts with light, movement, and environment—allowing garments to operate across situations without revealing intent.

This is not monochrome minimalism. It is controlled limitation.

FW26 uses black as a system—where every seam, pocket, and transformation must justify its existence.

KEY FABRIC DESCRIPTIONS

Cotton

Natural hand-feel with a structured drape. Breathable yet sturdy, maintaining form while ensuring all-day comfort.

Nylon

Lightweight yet resilient, water-resistant with a crisp texture. Ideal for outerwear built to perform under shifting conditions.

Cotton / Nylon

uses cotton's breathable softness with nylon's strength and abrasion resistance, creating a refined yet resilient surface.

Cotton / Polyester

Combines natural softness with technical resilience, offering both comfort and easy maintenance.

Denim

Rugged and enduring, with a lived-in character that deepens over time. Structured yet flexible, it adapts to the wearer's movement.

KEY DETAILS

Transformable Systems

Each piece is designed with controlled adaptability in mind. Jackets convert into coats, trousers reconfigure, and layers detach or compress— every transformation preserving structural integrity while expanding function.

Controlled Silhouettes

Proportions are deliberate and disciplined. Volume is managed, lines remain precise, and movement is intentional—resulting in silhouettes defined by restraint rather than excess.

Material-Driven Contrast

With color removed, distinction emerges through surface and texture. Matte and sheen, rigidity and softness, tension and release create depth within an all-black system.

Modular Layering

Each garment contains its own system of transformation. Pockets convert into bags, coats shift into jackets, and rainwear compresses into portable forms— expanding function
